

**POSSIBLE SERVICE REQUEST**  
**For every Customer that wants Corbet Water**

Name: \_\_\_\_\_

Phone Number: \_\_\_\_\_ Cell no. \_\_\_\_\_

Location of new service: \_\_\_\_\_

County road: \_\_\_\_\_ State Highway: \_\_\_\_\_

Existing House:     yes or no / if yes name of owner \_\_\_\_\_

Vacant Lot or Tract: yes or no / if yes description of property \_\_\_\_\_

Existing Meter:     yes or no / if yes name of member or owner \_\_\_\_\_

Is water main on same side of road? yes or no / if yes what size? \_\_\_\_\_

If water main is on opposite side of road / a road bore will be required. Cost of the road bore will be up to the contractor installing the bore according to the requirements of State of Texas and total footage needed to bring water to your property. \_\_\_\_\_

Approx. cost

If a line extension is needed to bring water to your property, we will have to get a hydraulic study done on this area from our Engineer to make sure that there is enough water available to serve your request. The Fee for the hydraulic study is **\$75.00 paid** before the study is done.

Examples of Cost :

House with an existing meter \$200.00 membership - \$30.00 service call = **\$230.00**

**House with an existing meter non- electronic up graded meter \$530.00**

New service on same side of road as water main- \$200.00 membership- \$800.00 impact fee- \$ 1,500.00 meter installation fee – CIAC fee 16,000.00 = **\$18,535.00**

New service requiring a road bore \$ 200.00 membership - \$800.00 impact fee - \$1,500.00 meter installation fee- CIAC fee \$16,000.00 plus all cost to bore under the road

\_\_\_\_\_.

New service requiring a line extension: First a \$75.00 hydraulic fee to the engineer. If there is sufficient water available / you pay \$200.00 membership- \$800.00 impact fee \$1,500.00 for meter installation/ CIAC \$16,000.00 / plus all cost to install the recommended PVC line and fittings to your property.
